**Subject:** Application for the Role of **Full Stack Developer**

Dear Sir/Madam,

I am writing to express my interest in the **Full Stack Developer** role. With practical experience in developing scalable web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**, I am eager to contribute my skills to your organization and be part of a dynamic development team.

I have successfully completed projects like a **Food Ordering and Delivery System** and a **Crowdfunding Platform**, where I handled end-to-end development, including responsive UI design, backend API development, real-time updates with Firebase, and integration of secure payment gateways like Stripe. I have also worked on an **IBM-academic project** focusing on Profile Management Systems, gaining cloud deployment experience.

My core skills include:

**Front-end:** React.js, Redux, Tailwind CSS, Bootstrap, Material-UI

**Back-end:** Node.js, Express.js, RESTful APIs, JWT Authentication

**Database:** MongoDB

**Version Control & Deployment:** Git, GitHub, Netlify, Render, IBM Cloud

With strong problem-solving skills, attention to clean code, and a passion for web development, I am confident in my ability to contribute effectively to your projects and company growth.

I would be grateful for an opportunity to discuss how my skills align with your requirements. Thank you for your time and consideration. I look forward to hearing from you soon.

Best regards,  
Selvam N
